

ARROW

75 WDG™

INTRODUCTION:

ARROW 75 WDG™ is a new generation of post-harvest Herbicide in Maize.

ARROW 75 WDG™ controls weeds by inhibiting the plant enzyme acetolactate synthase. This enzyme is not found in livestock, fish or man, which makes **ARROW 75 WDG™** very safe.

ARROW 75 WDG™ is applied post-emergence with a non-ionic surfactant when weeds are 10-25 cm tall and actively growing. Rain within two hours of application will not decrease the effectiveness.

ARROW 75 WDG™ is used for the control of weeds such as Johnson grass, quack grass, foxtails, shatter cane, panicums, barnyard grass, sandbur, pigweed, morning glory and others. It may be tank-mixed with a limited number of other compounds as instructed in the official label. Nicosulfuron is a member of the sulfonylurea family of herbicides

RECOMMENDATIONS FOR USE:

CROPS	SOIL TYPE	DOSAGE / Ha	REMARKS
Maize	All soil types	50-60 gram ARROW 75 WDG™ plus use an adjuvant (wetter/spreader/ penetrant) at the label recommended rate)	<p>Warning: Refer to antagonism restriction with organophosphate insecticides "USE RESTRICTIONS" above. Apply as a post-emergence application over the top of the maize. Apply when the crop is in the 2 to 6-leaf stage, after emergence of the weeds. Application must be directed in-between rows when possible.</p> <p>Apply when weeds are actively growing and do not exceed the optimum growth stages indicated below.</p> <p>Only apply a late second application at 7- to 10-leaf crop stage with dropped nozzles (directed spray) in order to avoid spraying directly into plant funnel and to ensure that the weeds are not shielded from the spray by the crop leaves.</p> <p>Cultivation subsequent to application of ARROW 75 WDG™ may lead to re-growth of rhizomes.</p>

DIRECTIONS FOR USE:

Apply **ARROW 75 WDG™** after emergence of both crop and the weeds. Prepare only sufficient spray of immediate use as follows:

Add one 10 gr soluble sachet of **ARROW 75 WDG™** to 15 liters of water. To increase performance of **ARROW 75 WDG™** add 10-15ml of RO208™, while agitating continuously. Wait until thoroughly mixed before application. Apply mixture with Napsack sprayer.

Note: Ensure that thorough agitation of the spray mixture is maintained at all times. Please read label before use.

HOW TO USE ARROW 75 WDG™

1.

Put 15 liters of water
in knapsack sprayer

2.

Add the 10 gr soluble
ARROW 75 WDG™ sachet
and 10-15 ml RO 208™
in the knapsack sprayer
and mix

3.

Spray the mixture when the maize is
in 4-leaf stage (20 cm) and
the weeds are 10-15 cm high

4.

After using ARROW 75 WDG™
you will have healthy maize
with minimal infestation

Liability: Notwithstanding anything to the contrary herein or elsewhere contained, the Seller's sole liability shall be to replace non-conforming Product, or if the Seller shall so elect, to refund Buyer with the amount paid therefore to the Seller provided that a written claim be received by the Seller within 14 (fourteen) days of delivery thereof to Seller. Failure on the part of Buyer to make a written claim within the time specified above shall constitute complete and final waiver by Buyer of all claims in respect of Products delivered and such Products shall be deemed, for all intents and purposes, to fully conform to agreed specifications or to the relevant samples - as the case may be. THIS WARRANTY IS MADE IN LIEU OF ALL WARRANTIES, EXPRESSED OR IMPLIED. ANY IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY APPLICABLE TO THE PRODUCT ARE HEREBY EXCLUDED. Seller shall not be liable for any indirect, punitive or consequential damages (including loss of profit) and in no event will the Seller's liability exceed the amount actually paid to the Seller for the products in respect to which the claims are made. If any limitation of liability shall be deemed invalid by any applicable law, then the Company's liability shall be within the limitation permitted by that law.
