

Description: Convey 500SL is a new generation, hybrid insecticide formulation for the control of Soft body insect pests and suppression of Spidermites on a wide range of crops.

- Convey 500SL contains Flonicamid 100 g/L + Garlic extract 400 g/L

Dual mode of Action:

- Flonicamid is a systemic insecticide absorbed in plant tissues, which rapidly inhibits the feeding behaviour of susceptible pests. Flonicamid has a unique mode of action which is different from other insecticides and is the only insecticide in Group 29. IRAC Group: 29 (Selective homopteran feeding blockers. Nerve action: Chordotonal organ Modulators - undefined target site)
- Garlic Extract: Biological insecticide containing Garlic food grade extract derivative which has a broad spectrum activity against Soft-body insect pests and Spidermites. Garlic extract has contact and repellent action, with additional anti-feeding activity. Primarily affects the juvenile stages of the insect pests.
- Convey 500SL doesn't have any adverse effect on the taste of food crops.
- Always alternate with insecticides with different mode of action through the season to prevent the development of resistant pests.
- Convey 500SL possesses low toxicity to most of the beneficial species and it is mainly dangerous upon contact. Please contact your local supplier for detailed information.

DIRECTIONS FOR USE: Convey 500SL should be mixed with water to be ready for use. It may be applied with any type of spraying equipment.

Rate of Application:

CROPS	PEST	APPLICATION RATE
Ornamentals	Aphids, Thrips, Whiteflies, Mealybugs, Suppression of Spidermites	600 – 800 ml/ha
Vegetables (Peppers, Tomato, Cruciferae, Carrots, Paprika, Peppers, Eggplant)	Aphids, Thrips, Whiteflies, Mealybugs, Suppression of Spidermites	600 – 800 ml/ha
Potatoes, Beans, Soybean	Aphids, Thrips, Whiteflies, Mealybugs, Suppression of Spidermites	600 – 800 ml/ha
Maize, Wheat	Aphids, Thrips, Whiteflies, Mealybugs, Suppression of Spidermites	600 – 800 ml/ha

~ Application rate - refer to the attached warranty leaflet - section A ~

COMPATIBILITY: The supplier makes no recommendation in regard to the compatibility of this product with any other products. No warranty is provided by the supplier for mixtures of this Product with any other products. When mixing this product with other products the buyer/user takes full responsibility and risk.

Special Note: Convey 500SL contains a plant extract and may contain additional ingredients, either natural or synthetic, derived from the plant and from the products used during the plant growth cycle. The user should pre-check the product suitability for its purpose before use.

Maximum Residue Levels: The local MRL levels may not be applicable in all countries where the products are exported to. Supplier can therefore not be held liable if the import tolerance of other countries is exceeded. Consult relevant export organisations or the supplier in case of uncertainty.

Instruction for Use

Fill 1/3 of the tank with clean water and add the required amount of the product. Ensure adequate agitation during filling, mixing and spraying.

Note: Shake well before use and ensure that the chemical mixture is used the same day it was prepared. Avoid drift into other crops, grazing, rivers, dams or other areas that are not under treatment.

HAZARDS AND PRECAUTIONS

Handling: Wear suitable protective clothing, gloves, face shield/safety goggles and respirator when preparing the spray mixture and in addition impermeable boots when spraying. Avoid, breathing the spray mist, contact with skin, eyes and clothing. Do not apply upwind and stay out of the spray mist. Do not smoke, drink or eat while handling the product.

After work: Change protective clothing and wash hands thoroughly with soap and plenty of water. Wash the spraying equipment and the contaminated clothing carefully.

Storage: Store in tightly closed (or sealed) original container, in a cool dry place out of reach of children and unauthorized persons, away from food, drinks and animal feed. Keep away from sources of ignition, no smoking.

Disposal: Dispose of by triple rinsing and crushing or perforating empty containers and throwing them away in an authorized landfill in a safe place away from water supplies. Do not re-use empty containers for any other purpose. Pesticide spray mixture or rinseate that cannot be used must be disposed of in a safe place where it cannot contaminate surface water and ditches or by spraying in fallow land.

ACCIDENTAL PESTICIDE LEAKAGE AND SPILLAGE:

Use personal protective clothing when dealing with spillages. In event of heavy spillage, collect the contaminated soil layer and bury in an authorized place away from water supplies. Soaking in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorized landfill site. The pesticide store must be decontaminated by washing with a lot of water.

WILDLIFE AND ENVIRONMENTAL PROTECTION

Do not contaminate ponds and waterways by direct application, cleaning of equipment, disposal of wastes and empty container. Keep livestock and wildlife out of treated areas. This product can be dangerous to bees, mainly upon direct contact. Apply early in the morning or late in the evening when bees are not actively foraging.

FIRST AID INSTRUCTIONS: Remove soiled or soaked clothing immediately.

If in contact with skin: Remove contaminated clothing and wash with plenty of water and soap. Consult the doctor in case the complaint persists.

If in contact with eyes: Rinse thoroughly with running water for at least 15 minutes. If pain persists, consult an eye specialist.

If swallowed: Rinse mouth out with water. Do not give anything to drink. Do not induce vomiting. Get immediate medical advice/attention.

TOXICOLOGICAL INFORMATION

Symptoms of Poisoning: No specific symptoms.

Treatment: Basic aid, decontamination, symptomatic treatment.

Important Note: This product must be used strictly as directed and in accordance with the instructions appearing on the label. The supplier accepts no liability other than as indicated in the Supplier's 'terms and conditions of sale' and the warranty clauses indicated in the Product's Label.

PLEASE READ CAREFULLY THE FULL LABEL BEFORE USAGE.

WARRANTY: Sellers guarantee is limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product in that condition.
